ing shall be liable to a fine of not less than one nor more than five dollars. Sec. 2d. That it shall not be lawful for any person to keep open any barber shop or any place of business for the sale of any article or articles of profit during the Sabbath day, excepting apothecaries, for the dispensing of medicine and all other matters of charity and necessity, and 'hat for any violation of this act the person so offending shall, for each and every offense, be liable to a fine of not less than twenty nor more than forty dollars, and that the flues and penalties under this act shall be collected as fines usually are, and one-half of each and every fine shall be paid to the in-

Mr. Lloyd was opposed to the bill, because

he could see no annoyance to which the public

were subjected by the boys in crying aloud the news: he thought that if a reform was aimed at regarding the Sabbath, it should commence with affairs of greater magnitude. The street cars, backs, &c., were, in his opinion, much greater annoyances that these little newsboys. Folks held that the boys interrupted divine service; but he thought none were annoyed but those who attended church so rarely that their consciences smote them when they did go, and the newsboys had to bear the blame of it And concerning shaving, he thought it was the duty of every man to put himself in order before he attended church, for two reasonsfirst, because his wife would not go to church with him unless he was shaved, and second because he should not go to church without first having his beard shaved. Folks might just as well pass a law prohibiting private families from having boiled dinners on the Sabbath.

Mr. Utermehle remarked that, as far as it regarded the running of cars, hacks, &c., on Sunday, there was no need of legislation, as the Corporation laws now prohibited it, and that that power was sufficient to stop it at any time; and as to keeping open barber-shops on the Sabbath, he was opposed to it, as only those who had plenty of time to get shaved during the week were found there on Sunday morning. He shaved himself, and did not go to a barber-shop at all.

Mr. Pepper approved the views of Mr. Lloyd, and would not be surprised to see some of these little newsboys and boot-blacks at some future day occupy the Presidential chair or seats in their board, and referred to a former President, Millard Fillmore, who once was a runner in a factory, and alluded to several other examples of a like nature. As to keeping open shops, he thought that those who were steadily confined to their duties through the week should have the privilege of procuring for their little ones a few candles, ice-cream, &c., on the Sabbath, as that was the only time they could find time

Mr. Pepper moved to insert in first section the words "after 9 o'clock a. m ' Mr. Noyes moved to make it 11 o'clock in order to accommodate church-goers who wished to get the news up to the last minute; otherwise they might be harrassed in mind during service by the deprivation. The amendment extending the hour to 11

o'clock was adopted. Mr. Noyes moved to insert in section 2, after the words "excepting apothecaries for dis-pensing medicines," the words "and undertakers providing for the burnal of the dead." Mr. Lloyd moved to lay the whole subject

on the table. Lost.

Mr. Lloyd moved to strike out the whole of section 2, which motion was decided by yeas and nays. Yeas 5, nays 8; so the motion to strike out was lost. Also, moved to insert the words, "barber shops shall be allowed to remain open until 11 a. m. on Sabbath mornings." Rejected. He then moved to insert the words "10 a. m.," in lieu of the words "9 a. m." Rejected. Mr. Utermehle moved to insert the words

"for shaving and hair-cutting." Adopted.

The bill being put upon its final passage, was passed as amended. Mr. Lloyd then moved to change the title of the bill just passed, so as to read: "A bill to prevent violations of a portion of the Sabbath day." Rejected.

Mr. Noyes, from the committee on drainage, &c., reported back Common Council bill, asking the Mayor to permit Messrs. Clark & Morrison to build a sewer, with an amendment providing that it be turned over to the Corperation without cost; and with an additiona tion providing for the manner in which the sewer shall be constructed and laid. Passed. Mr. Rapley asked leave to take up a bill to gravel a footwalk in the 1st Ward. Passed.

Mr. Gulick, from the committee on claims, reported back a bill for the relief of James Towles, and asked that the committee be discharged from its further consideration; and it Bills from the lower Board:-A bill for a

tion, with his reasons for not approving the same, was read by the President. The bill proposed to exempt the property of the new Foundry M. E. Church. The Mayor's reason is, that if the property proposed to be exempted is the property of the church for public woris the property of the church for public worhip, there is a law in existence which exempts all such property, and special legislation is unnecessary. If it proposes the exemption of other property of the church not exempted by that law, he would object to making invidious distinctions by favoring one class or denomination of Christians more than another. The Mayor says: "Should the Council think proper to make a general law, giving to all denomina-tions alike the advantages likely to accrue to the Foundry M. E. Church from the bill I return without my approval, it would meet my hearty approbation."

The question being put to the Board, Shall this bill pass, notwithstanding the objections of the Mayor, it was rejected-yeas none,

ARSENIC FOR TUBERCULAR CONSUMPTION—
Mr. Montigny, the French Consul in China, remarks that the people of that country mingle arsenic with their smoking tobacco. This practice has been observed by other writers; and the smokers are said to be healthy and stout, with powerful lungs, etc. The publication of this statement in France called out a letter from Dr. Londe, who announced that at a discussion of medical men some years ago upon the agents to be employed for tubercular consumption, he had found only one to be successful, arsenic taken in the way of smokingIf this is an established fact, some one ought to explain the matter definitely.
